It costs the Royal Baking Powder

Company something like \$500,000

annually for advertising, says an ex-

change. Someone once suggested to

the company that it discontinue the

advertising one year, the baking

powder was so well known and ad-

vertised, and place that amount in

the profits. The answer was that it

would undoubtedly cost the company

three times that amount to get the

product in its original channels

again.

Another Free Trade Trust is reported

from England. This time it is

the British Cotton and Wool Dyers'

Association, with a capital of \$10,000,

000. The plan is to consolidate

firms engaged in dyeing cotton warps

and cotton yarns, in bank, for the

use of manufacturers of fancy cloths.

Under this new British trust, man-

ufacturers with the Bradford Dyers'

Association and the Calico Print-

ers Association. It is declared that

the trust will be made to raise

prices arbitrarily, and incidentally

to develop by "material economies"

in the cost of production. On a much

larger share of the United States

market may be secured by this new

Free Trade trust. This may be

the end of the "Free Trade" era.

The Southern Democracy is a house

divided against itself. Further proof

of this fact is furnished by considera-

tion of two United States sena-

tors, one of whom is a pronounced

protectionist and the other of whom

desires it to be understood that he is

opposed to it. First, last and all the

time. In Tennessee the best spirit-

ism of the party is antagonistic to

the introduction of anti-expansion

plans in Democratic platforms. In

Alabama and Mississippi, according

to the leading Democratic news-

papers, there is sympathy whatever

with the northern Democratic de-

mand for the surrender of the Phil-

ippines. Virginia, West Virginia

and a large part of Kentucky are in

favor of sound money. Texas wishes

to have the Philippines retained and

the Nicaragua canal built without

delay. Not half a dozen states in

the south and south-seem ready

to accept without question the Chi-

cago platform and any changes for

the worse that the Kansas City

convention may make in it. Chicago

later Ocean.

About the only significant feature

in the Cuban elections was the

unity of the people as to this result.

There are two reasons given for this.

One is that the Cuban people realize

that the military are in control and

mean to remain so, and that the

election is not worth the candle. The

other is that the Cuban people were

opposed to professional politicians, and

aristocrats, and that therefore the

best class of Cubans held aloof. The

contrast to the methods in Spain

where the military rule when prominent

planters, university professors and

other men of learning were put for-

ward as candidates must be most

striking. The victory of Gen. Rod-

riguez in Havana was a victory for

the revolutionary element, and rep-

resents the party of unrest under

almost any conditions. As Senor

Mora, the republican candidate, ex-

pressed it, it was a fight between the

sword and the toga and the sword

The Wage-Earners' Gain.

When the citizens of the United

States cast their ballots at the ensu-

ing election the present tariff law

will have been in operation three

years, three months and twelve days.

The wage-earners of the nation may

be congratulated that the prices of

many products of American labor

have not risen so much as they

might have done under the present

tariff administration.

In the campaign of 1890, which

immediately followed the enactment

of the McKinley tariff, the prom-

oters hired tin peddlers to travel

to the country and tell about the

advanced prices of tin ware and Dem-

ocratic merchants marked up their

goods to mislead ignorant voters.

For a year or more than three

years of the present tariff law, the

advance in prices was not nearly

so great as to afford the tin peddlers

any substantial foundation for a

another campaign falsehood such as

was conducted by them in 1890.

Steady work, as against the idleness

and short hours of the Wilson admin-

istration, more than covers the advance

in cost of all the necessities of life, ex-

cept if wages had not advanced at all.

It is true that the wage-earners have

not the income of wages which

they are now receiving. (Tribune

Cheap Insurance

Many a man has been insured

against bright's disease, diabetes or

other diseases, and all for nothing.

Let him get a policy of Foleys' Kidney

Cure, and he will have a policy of

cheap insurance.

The critical situation in China

is thoroughly discussed at a cabinet

meeting this week. There will be

change in the attitude of this Gov-

ernment, which is to keep our fingers

out of the internal affairs of China

and to confine ourselves to protect-

ing Americans and American inter-

ests. There is a feeling that the

Chinese revolution will result in an

international war in which the

more European powers may become

involved, and which may result in

action on the part of this govern-

ment to save our trade and rapidly

increasing trade with China. The

administration will not say any more

regarding our policy, regarding

its source. We may have the

right to trade with China and we

are going to keep it.

Quick Relief for Asthma

Miss Madeline Jackson, Parsons,

Kan., writes: "I suffered eight years

with asthma in worst form. I had

several attacks during the last year

and was unable to do anything but

rest. I began using Foleys' Kidney

Cure and after a few days I was

able to do my usual work. I am

now free from the disease. I can

give honest testimony to the fact

that it is a cure for asthma."

Mortgage Sale

Whereas default has been made in

the conditions of a certain mortgage

made to the State of Michigan, to

the effect of which is to sell the

premises described in the mortgage

to the highest bidder, and whereas

the mortgage is now due and

payable, and whereas the mortgagor

has failed to pay the same, and

Sea Shell Mission in England. One of the unique characteristics of England is that which flourishes only during the summer—the Sea Shell mission. It is under the patronage of a very distinguished lady, royally itself being interested; although it is the English children who carry it along. All through the season the little folk may be seen with their bags or pails or baskets, picking up the treasures of the beach—shells, moss, pretty stones and various sea creatures.

to give headquaters, whence they are distributed among the children of the poor.

Each year's group to-day to show you a package of "CUBA" of the new food drink that takes the place of coffee. The children who drink it without injury as well as the adults who enjoy it as a GRAIN-O-LAX, that gives you a brown, moist, or even made from pure grains and the most delicate stomachic effect without distress. It is the price of 10c and 25c per package. Sold by all grocers.

Cuba Custom. In Cuba a married family keep the windows of their house shut and darkened during the day. They do not open them until the evening, and then they look out on the dark and back the curtains. This is done so that there may be nothing in the house worth looking at.

A DEAD LIVER. He thinks he lives, but he's a dead one. No person is really alive whose liver is dead. During the winter most people spend nearly all their time in warm, stuffy houses or offices or workshops. Many don't get as much exercise as they ought, and everybody knows that people gain weight in winter. As a rule it is not sound weight, but means a lot of flabby fat and useless, rotting matter staying in the body when it ought to have been driven out. But the liver was overburdened, deadened, stopped work. There you are, with a dead liver, and spring is the time for resurrection. Wake up the dead! Get all the full out of your system, and get ready for the summer's trials with clean, clear blood, body, brain free from bile. Force is dangerous and destructive unless used in a gentle persuasive way, and the right plan is to give new strength to the muscular walls of the bowels, and stir up the liver to new life and work with **CASCARETS**, the great spring cleaner, disinfectant and bowel tonic. Get a box to-day and see how quickly you will be BROUGHT BACK TO NEW LIFE BY **CASCARETS**. CANDY CATHARTIC. BEST FOR THE BOWELS. ALL DRUGGISTS. 10c. 25c. 50c. To any ready market suffering from bowel trouble, and too poor to buy **CASCARETS** we will send a box free.
